SURPRISE IN COURT

Wundenberg for Kona Sugar Co. Receiver.

Fred W Wundenberg was yesterday appointed receiver for the Kona Sucar Company by Judge Humphreys. The court refused to appoint 8 M. Damon, the man agreed upon by all parties to the suit, on the ground that he was disqualified as being a creditor, and further, because his business engagements were such that the court did not believe be could give the matter the attention which the court thought it deserved.

The suit was called up vesterday af-

Mr. Hankey read the complaint, following which the answer of the Kona Sugar Company was read by Judge Silliman.

The defendants admit nearly everything in the complaint excepting the amount of indebtedness, \$183,826.05, which it leaves the plaintiff to prove Defendant denies that some of the les-

Defendant denies that some of the les-tors of the land held by it under lease have threatened to take proceedings to forfeit the leases granted by them. Defendants admit the necessity of a receiver, but deny that the contract of October 1, 1898, mentioned in plaintiff's bill of complaint constituted an equit-able lien in favor of plaintiff's upon all or any of the crops of this defendant or any of the crops of this defendant during the term of the said contract. Mr. Hankey then presented his peti-

tion for the appointment of the re-ceiver, the defendants agreeing to it, as signified in their answer. Judge Humphreys thereupon asked if the attorneys had any one to suggest for the receivership, and Mr. Hankey stated that all the parties to the suit had agreed upon S. M. Damon for receiver, in which statement Mr. Silliman con-

said Judge Humphreys, "of appointing a creditor as receiver. Under the rules of law Mr. Damon is disqualified from acting. I have looked up the question, and do not think I can appoint him."

I agree with the court," replied Mr. Hankey, 'that it is not usual to ap-point a creditor as receiver, but ac-cording to this proceeding Mr. Damon is not a creditor. The parties to this suit are desirous of having a receiver appointed who can go outside the usua! duties of that position, and incur fur-ther debts to carry on the plantation." "I have no doubt of the ability of

Damon to secure the funds need-said the court, "but I cannot see way clear to appoint him, though appointment is desirable on that ount. I know, personally, that Mr. Damon's business engagements are such that he cannot give this matter the personal attention that it requires. and the duty would necessarily be delegated to his clerks. It is a well settled principle of jurisprudence that a creditor cannot be appointed, and I do not believe that Mr. Damon could give it the attention which the court should exact."

yadge Humphreys then said he would appoint Fred W. Wundenberg as receiver, and fixed the bond at \$75,000. An order was made in accordance with that decision, the court adding the bond provision himself.

Judge Silliman suggested to the court that some explanation of the court's ruling was due Mr. Damon court's ruling was due Mr. Damon

GRAND JURY WORK.

The grand jury filed into court yesterday afternoon and asked for secret instruction from Judge Gear. The foreman stated that there were several questions which the jury would like to have the court answer, and Judge Gear promised to go to the jury room at 4 o'clock, which he did. It is thought that the jury wanted information concerning the prosecution of the liquor dealers who are selling beer under the Primo beer licenses declared void by Judge Estee.

SUPREME COURT. Supreme Court handed down an opinion yesterday reversing the Circuit Court in the case of Joaquin Silva vs. J. F. Souza. The court holds that the judgment given by Judge Gear of \$336 for damages because of the construc-tion of a high fence in front of plain-tiff's property is excessive. The court tiff's property is excessive. The court rules that exemplary damages should not have been allowed.
